PROFESSIONAL OVERVIEW

Business operations and transformation leader with 20+ years of experience across finance, operations, and commercial execution, including 10+ years in leadership and 8+ years leading global teams. Experience includes leadership of multi-level organizations of 50+ FTE across North America, Europe, and APAC and responsibility for operations supporting a \$100M+ annual net revenue portfolio. Combines business ownership with revenue operations, analytics, business systems, automation, and AI-enabled problem solving, partnering with Product and Engineering to turn complex business requirements into scalable solutions and stronger operating models.

WORK EXPERIENCE

NCR ATLEOS (formerly NCR CORPORATION)

Business Operation Manager | Apr 2019 – present

Global scope covering revenue, billing, entitlements and post-sales, with a focus on operating-model transformation, business systems, automation, governance and cross-region standardization across North America, Europe and APAC.

Key Achievements & Impact

- Led the transformation of fragmented, Excel-based revenue and post-sales processes into a centralized, controlled operating model, reducing manual handoffs and improving scalability across high-volume global processes.
- Served as business product owner for an internal Revenue Automation & Billing platform, translating business needs into requirements, priorities and system capabilities while driving UAT, rollout and adoption with Product and Engineering teams in the US and India.
- Standardized workflows, controls and exception management across North America, Europe and APAC, balancing a common global model with regional billing, tax and contractual requirements.
- Built Power BI and SQL-based decision frameworks integrating GL, contract and operational data to strengthen KPI governance, forecasting, revenue visibility and executive decision support.
- Identified and addressed revenue leakage through large-scale analysis of millions of field-service interventions, translating contract and entitlement logic into standardized validation rules and converting tens of thousands of eligible events into validated billing outcomes.
- Designed KPI health and strategic-initiative reporting across 6–7 teams, integrating performance, ownership, priorities, risks and execution status into interactive management views that improved visibility and prioritization.
- Lead a Continuous Improvement Forum, modernizing a legacy SharePoint experience into an interactive knowledge hub and increasing participation and adoption of employee-led improvement solutions through targeted communications and Viva Engage.

ACHIEVEMENTS

Awards

Global NCR Leadership
Recognition (2019) - Revenue
growth & European team
performance

Supervisor, Business Operations (EUROPE region) | Apr 2018 – Mar 2019

Established Business Operations for Europe, adapting the North American revenue model to multi-country operational, commercial and regulatory requirements.

Key Achievements & Impact

- Standardized entitlement, contract and billing workflows across European markets, improving revenue capture and reducing manual workload.
- Introduced early digital enablement within field-service billing workflows, reducing downstream operational costs and validating performance improvements.
- Demonstrated operational viability and uplift results that supported subsequent expansion into global Revenue Operations.

Business Operations Analyst (North America) | Nov 2016 – Mar 2018

Performed operational and revenue analysis across field services, contractual entitlements, and post-sales workflows for North America region

Key Achievements & Impact

- Identified revenue leakage from billing gaps and entitlement on targeted US accounts and redesigned workflows to improve revenue capture.
- Delivered revenue uplift up to +150% on pilot accounts, validating new entitlement logic and workflow design.

PUSULA WINERY, branch company of ASTRA ITB doo, Belgrade

Project Manager, Wine Business | Aug 2010 – Oct 2016

Privately funded venture | 15 FTE | Production, finance, sales & distribution

Key Achievements & Impact

- Built business plan and financial model (CapEx/OpEx, COGS, cost-benefit, revenue forecast) for privately funded wine venture.
- Led end-to-end operations across production, finance, sales, marketing, and supply chain in a 15-person organization.
- Launched new brand (HORECA), expanded distribution internationally (~\$250K annual revenue), and secured government incentives for agricultural expansion.

ASTRA ITB doo, Belgrade

Manager, Foreign Trade | Jun 2006 – Jul 2010

Key Achievements & Impact

- Managed cross-border trade and logistics across multiple industries (wood, chemical, electrical, food), including negotiation, transportation, customs, and regulatory compliance.
- Performed shipment-level financial analysis (pricing, taxes, GL control, P&L, cash flow) and supported public procurement documentation.

Finance Specialist | Sep 2003 – May 2006

Supported invoicing, payroll, accounts receivable, cash-flow monitoring, tax reporting and financial reporting.
